## PROFESSIONAL SUMMARY

Senior Full-Stack Software Engineer with 8+ years of experience designing, building, and scaling secure, high-performance web applications. Strong background in React, Next.js, TypeScript, Node.js, Java/Spring Boot, PostgreSQL, AWS, and distributed systems. Experienced in technical leadership, API architecture, CI/CD, performance optimization, and mentoring engineering teams.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, accessibility

**Backend:** Node.js, Express, NestJS, Java, Spring Boot, REST APIs, GraphQL, microservices

**Data & Cloud:** PostgreSQL, MySQL, Redis, MongoDB, AWS, Docker, Kubernetes, Terraform

**Engineering:** Git, GitHub Actions, CI/CD, Jest, Playwright, JUnit, Agile/Scrum, system design, security

## PROFESSIONAL EXPERIENCE

**Senior Software Engineer / Full-Stack Lead | Nexus Digital Solutions** Jan 2022 – Present

- Led a 6-engineer team delivering React/Next.js customer platforms and Node.js/Spring Boot services for enterprise clients.
- Redesigned API and caching layers, reducing median response time by 42% and improving uptime to 99.95%.
- Introduced automated testing and GitHub Actions pipelines, cutting release time from 2 hours to 25 minutes.
- Partnered with product, UX, and security teams to ship accessible features and mentor junior developers.

**Full-Stack Software Engineer | CloudBridge Technologies** Jun 2019 – Dec 2021

- Built multi-tenant SaaS workflows using TypeScript, React, Node.js, PostgreSQL, and AWS.
- Implemented role-based access control, audit logging, and secure REST APIs serving 35,000+ monthly users.
- Optimized SQL queries and client-side rendering, improving key page load times by 38%.

**Software Engineer | BrightCode Labs** Jul 2017 – May 2019

- Developed responsive dashboards and backend integrations for commerce and internal operations products.
- Expanded unit and integration test coverage and worked in Agile sprints with designers and QA engineers.

## SELECTED PROJECTS

**CommerceFlow | Full-Stack Commerce Platform** — Designed Next.js storefront, Spring Boot APIs, PostgreSQL data model, Stripe-style payment integration, and AWS deployment; supported 10,000+ monthly transactions.

**InsightHub | Real-Time Analytics Dashboard** — Built React/TypeScript interface with WebSocket event updates, Redis caching, and role-based reporting; reduced dashboard data latency by 55%.

## EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science | University of Technology | 2017

AWS Certified Developer – Associate | Professional Scrum Master I (PSM I)
